

Reconnecting Communities

Tell Us What You Think!

For many Hamilton residents, workers, and visitors, getting from one side of the community to the other is more difficult than it should be.

The First Suburbs Consortium and Hamilton County have launched a planning study to help **reconnect your community**. Transportation barriers like highways, railroads, missing sidewalks, and more impact your access to jobs, healthcare, education, parks, and family. This project will **find solutions for safer, more connected, and more vibrant neighborhoods**. We need your input to understand how these barriers affect you, and how we can make it **better together**.
